

## PTT (Portable Toilet Treatment)

### INFORMATION SHEET

**Product Description:** A highly concentrated product for eliminating odours and reducing solids in portable toilets, porta-potties etc. Used in both top & bottom tanks and contains a mild fragrance. Safe to handle and safe to dispose of down a septic system, pit toilet or composting toilet.

#### Applications:

\*Caravans      \* Motor-Homes      \* Porta-potties      \* Site Toilets

#### Benefits:

- **100% Environmentally safe and non-toxic**
- **The product contains no harmful chemicals, bacteria or enzymes.**
- **Same product is used in both top tank & bottom cassette.**
- **Cleans bowl, lubricates the seals and has a mild, pleasant fruity fragrance**
- **End product is safe to dispose in septic systems, pit toilets or waste drop points.**
- **PTT's effectiveness increases with any rise in temperature, ensuring odour control on hot, humid summer days.**
- **Highly concentrated using only 25ml per treatment (for most standard caravan applications).**
- **No fuss, single application, single product**
- **Cost effective at only 70 cents per standard treatment!**

#### Dosage:

After emptying the portable toilet, add water charge to unit then add PTT as follows:

- Portable Toilets with cassettes up to 25L – use 25ml (can use 15ml in bottom and 10ml in top)
- Portable Toilets, Waste Holding Tanks up to 160L – use 50ml
- Re-circulating Toilets with tank up to 160L – use 100ml

**The contents of the toilet can be safely disposed of down a septic system, pit toilet or composting toilet as we guarantee our product is 100% safe for the environment!**

**It will even improve your septic system!**
