

## PVH (PITS, VAULTS & HOLDING TANKS)

### INFORMATION SHEET

**Product Description:** PVH is a liquid additive containing inorganic and organic nutrients that are specifically engineered to stimulate facultative anaerobes (bacteria that breaks down waste). These nutrients create a thriving environment for the bacteria to breed and work actively digesting the waste and overcoming odour. PVH does not attempt to mask odours with strong perfumes but actually eliminates the biological mechanisms which cause the formation of odour.

#### Applications:

- Pit Toilets
- Boat & Mobile Home Holding Tanks
- Portable Camping Toilets
- Grease Traps & Grey water lines
- Composting Toilets
- Drains

#### Benefits:

- Does not just mask odours – it eliminates them.
- Liquifies solids and paper
- Cleans pipes
- No perfumes, dyes or formaldehyde
- Easy to use – no chemicals to mix
- Will not contaminate ground water
- Unaffected by temperature
- Accelerates Composting process

#### Dosage:

- **2,500 litre Holding Tank** – 60ml with 1 litre of water each week
- **Boat Holding Tanks:** Add 100ml for every 5,000 litre of capacity after each pump out.
- **Portable Toilets:** 30ml will treat a 22litre Porta Potty, added only after each emptying
- **Composting Toilets:** 50ml of PVH mixed with 1 litre water poured down toilet weekly
- **Grey Water Drains:** 30ml mixed with 2 litres water flushed through drain, last thing at night for 3 nights then once each week.

## Innovative Science Natural Solutions

Available in:  
850ml Bottle  
5 litre Bottle  
20 litre Drum
