

SSR (SEPTIC SYSTEM REVITALISER)

INFORMATION SHEET

Product Description: The ideal problem solver for your backyard septic, aeration system, drains, grease trap or grey water. A micro-nutrient formula that supplements the growth and activity of the existing bacteria creating an environment in which they thrive. Odour goes and your system works much more efficiently.

Benefits:

- Reduces solids and sludge volume
- Cleans lines and pipes
- Maintains a clog free drain field
- Will not contaminate ground water
- Works as a shock treatment
- 100% natural – Non Toxic
- Environmentally responsible
- Biodegradable
- Safe to handle
- Economical

Applications:

- New Septic Systems/Aeration systems
- Sluggish Septic/Aeration Systems
- Odour problems
- Clogged drains
- Maintenance of Grease Traps

**Works with nature
not against it!**

How to Use:

- To shock dose a new system or blocked drain field, empty 400ml into toilet last thing at night and flush. Then use 10ml of **SSR** weekly (1 litre is a year's supply) or an **SST** for ongoing maintenance.
- To clean a grease trap and maintain grey water lines, place 10ml in the kitchen sink with a sink full of water and then release. This should be done last thing at night for three nights and then at least one night each week.

Available in:

1 litre
5 litres
20 litres
